4th September 2023

Dear Parents/Carers

RAAC in schools

You may be aware from media coverage that the government has asked some schools to close or partially close due to the presence of reinforced autoclaved aerated concrete (RAAC) in their school buildings. We understand that this is an unsettling news story and that it may naturally have led you to wonder about the safety of our school building.

Our school building does not contain RAAC as this has been confirmed during the completion of a specialist survey that was carried out through the Local Authority. Therefore the school is fully safe to open.

I hope that this provides reassurance, and we look forward to welcoming your child to our safe and secure learning environment.

If you have any questions, please contact me via the school office.

Yours sincerely

Mr N Oxley
Headteacher
