Attainment and Achievement

Attainment and Achievement Summer 2020

Attainment

All schools are required by law to publish their student's results annually. In all types of schools these results are used as an important indicator of school effectiveness. We were delighted, in August to hear the announcement that our students will be awarded their Centre Assessed grades that were submitted by us to the exam boards in June.

Pupils at the end of key stage three (at fourteen) are working across the early levels of our National Curriculum and are assessed by their teachers. Pupils at the end of key stage four (at sixteen) take a range of examinations, which include GCSE, GCSE Equivalent qualifications, Entry Level Certificates (these overlap with GCSE), specialist qualifications and vocational qualifications.
