

Weather in German!

Hi guys!

I have found a short video for you to watch which relates to weather in German.

Here are a few things for you to think about?

1. What does the first phrase 'Die Sonne und der Wind' mean?
2. Can you write down some of the weather words from the video?

If you can, make a table of the differences between English and German weather. I have done the first one for you.

In England...	In Germany...
Summer temperature is around 15 to 25 degrees.	Summer temperature is normally around 25 degrees.
