

Animals in German!

Hi guys!

I have found a short video for you to watch which relates to animals in German.

Here are a few things for you to think about?

1. Did you know any of the words for the animals in German?
2. Which ones?
3. Did you learn any new words?

If you can, make a table of the vocabulary that you have learnt from the video. I have started a table off as an example.

| In German | In England |
|-----------|------------|
| das Hund | dog |
